

# Even Feed Foot

## With Teeth

### #RWA1 Low

### #RWA2 High

This even feed foot enables you to sew hard-to-sew fabrics without sliding nor slipping and with perfect matching. Use it for sewing leather, ultra suede, shiny fabrics (vinyls, patents and satins), bonded fabrics, pile fabrics, any matching stripes, plaids and patterns. It is not recommended for use when stretch stitching.

### To attach the even feed foot

- (1) Raise needle to its highest position
- (2) Raise presser bar to its highest position and guide the even feed foot into position from rear of machine
- (3) Attach presser bar clamp to presser bar and tighten presser foot screw or lift presser foot lock to secure attachment
